Velangani Bhutange

Software Tester @zCon Solutions | AI/LLM Feature Testing | Manual & Automation Testing | API & Integration Testing | CRM & Database Testing | Selenium | Java | Cucumber | ReqNRoll | Agile Methodologies

Nagpur, Maharashtra, India

Summary

I am a quality-focused Software Tester with hands-on experience in manual testing, automation testing, API testing, integration testing, regression testing, smoke testing, and end-to-end testing. Currently working on a Real Estate Technology SaaS Platform involving Angular frontend modules, .NET/Azure backend services, CRM integrations, databases, REST APIs, notifications, reporting, authentication flows, and AI/LLM-based features. Experienced in automation frameworks built using Selenium, Cucumber, and Maven for BDD UI automation, along with C#, Reqnroll, and xUnit for functional, API, and end-to-end test coverage. Skilled in reusable step definitions, structured test data, scenario tagging, regression execution, failure analysis, and maintainable automation suites. Strong experience in validating business-critical workflows, frontend screens, backend APIs, database validations, third-party integrations, file uploads, role-based access, queue-based workflows, and data synchronization across systems. Skilled in writing feature scenarios, designing test cases, executing test cycles, reporting defects, analyzing failed automation scenarios, retesting fixes, regression validation, and release support in an Agile environment. Hands-on with Selenium, Java, C#, Cucumber, Maven, Reqnroll, xUnit, SQL, Postman, Jira, Azure services, and browser developer tools. Passionate about improving software quality, strengthening automation expertise, and contributing to reliable, scalable, and user-focused products.

Experience

zCon Solutions
Software Tester
June 2024 - Present (2 years 5 months)
Pune District

Working as a Software Tester on an Enterprise Real Estate SaaS Platform involving Angular frontend modules, .NET/Azure backend services, CRM integrations, APIs, databases, notifications, reporting, and AI/LLM-based features.

Involved in testing web application features built with Angular, TypeScript, HTML, SCSS, Angular Material, Bootstrap, RxJS, Angular Forms, and REST API integrations. Working across frontend and backend validation, including APIs, databases, CRM systems, Azure Functions, Azure Service Bus, Azure Blob Storage, notification services, reporting modules, authentication flows, and LLM-based/AI-driven features.

Responsible for performing functional testing, UI testing, API testing, integration testing, regression testing, smoke testing, and end-to-end testing to ensure application stability, data accuracy, and business workflow reliability. Collaborating with developers and business teams in an Agile environment for defect reporting, retesting, test case execution, and release validation.

Altius Customer Services Pvt Ltd

Customer Support Associate

October 2021 - April 2023 (1 year 7 months)

Nagpur

Worked as a Customer Support Associate, responsible for handling customer queries, service-related issues, and complaint resolution through effective communication and coordination with backend teams. Assisted customers by understanding their concerns, raising issues to the appropriate departments, following up on pending cases, and ensuring timely resolution within defined service standards.

Gained hands-on experience in customer interaction, issue analysis, escalation handling, service request management, documentation, and maintaining customer satisfaction through professional and solution-oriented support.

Karvy Digikonnnect

Customer Support Officer

June 2019 - January 2020 (8 months)

Hyderabad

Worked as a Customer Support Officer for an e-commerce process, responsible for assisting customers with order-related queries, service requests, complaints, and resolution follow-ups. Handled customer interactions professionally while ensuring accurate information, timely responses, and adherence to defined turnaround time requirements.

Developed strong experience in customer communication, query handling, issue documentation, escalation management, process compliance, and maintaining service quality in a fast-paced customer support environment.
